

# These samples & loops were created with the **Hip Hop and Gospel ADpak**

## Your all-in-one kit for precise grooves

The Hip Hop and Gospel ADpak gives you mix-ready drums with punch, clarity, and soul. Equally suited for punchy, pocketed hip-hop in the vein of **Kendrick Lamar** and **Jay-Z**, and for explosive gospel inspired by giants like **Kirk Franklin** and **Tye Tribbett**.

# Frequently Asked Questions

## Can I load these samples in Addictive Drums 2?

No, Addictive Drums 2 doesn't load .wav samples. You need to load these samples in a sample player. If you don't own XO or some other plug-in that can load samples, check your DAW. Most DAWs have built-in samplers.

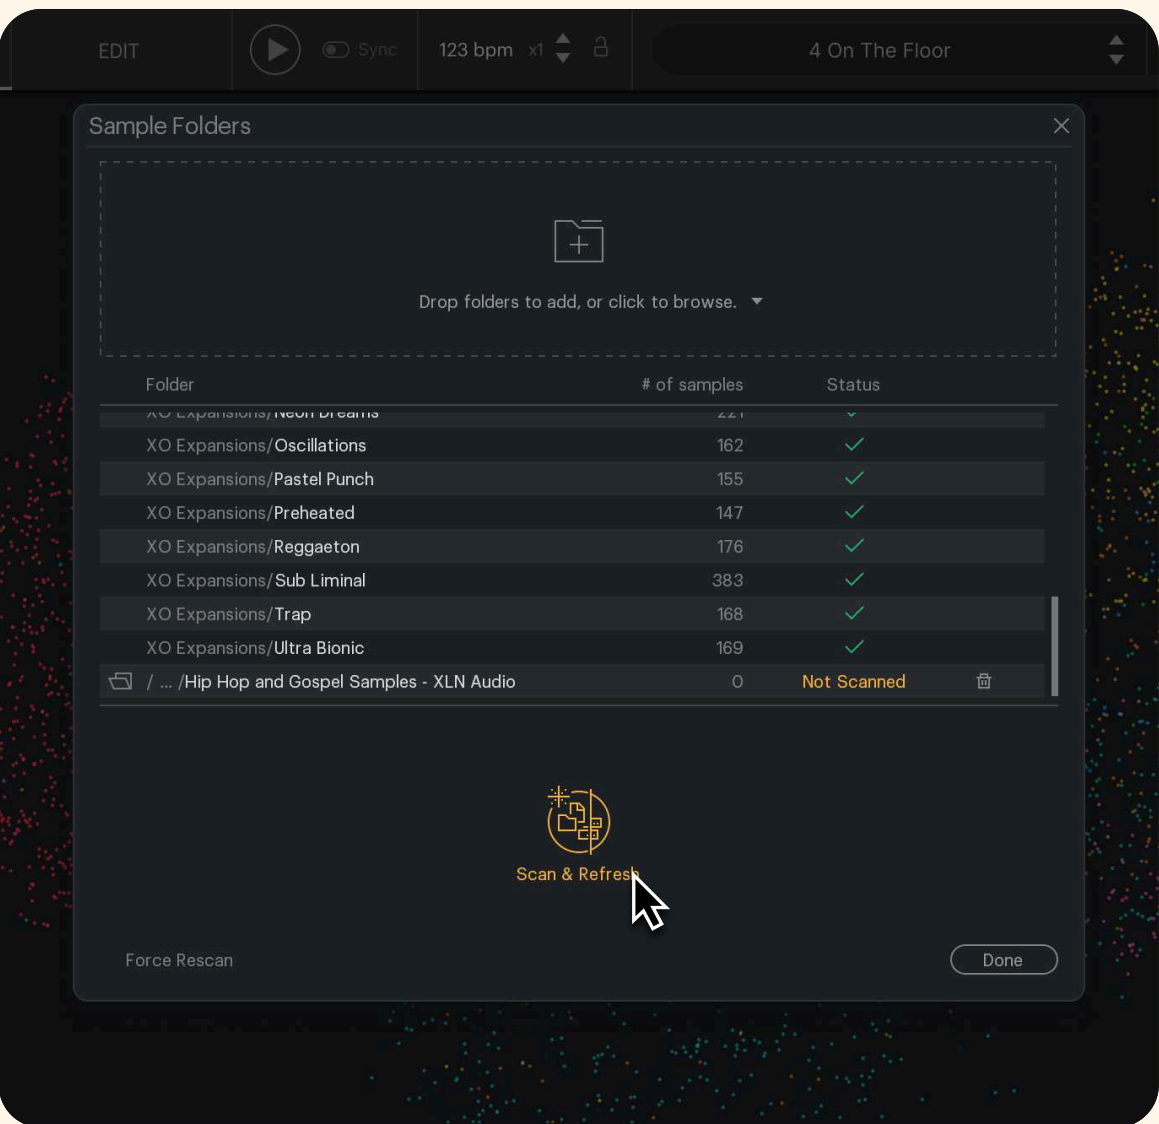

## Why are you giving the samples away?

We're giving away a small teaser of our latest ADpak **Hip Hop and Gospel**. The full ADpak includes many production presets and several hundred samples per drum.

The sample pack is a gift to our users and we're hoping that more people will be interested in trying out Addictive Drums 2. We also want to inspire Addictive Drums 2 users to try working with one-shots.

# Using this sample pack in XO

## How do I load these samples in XO?

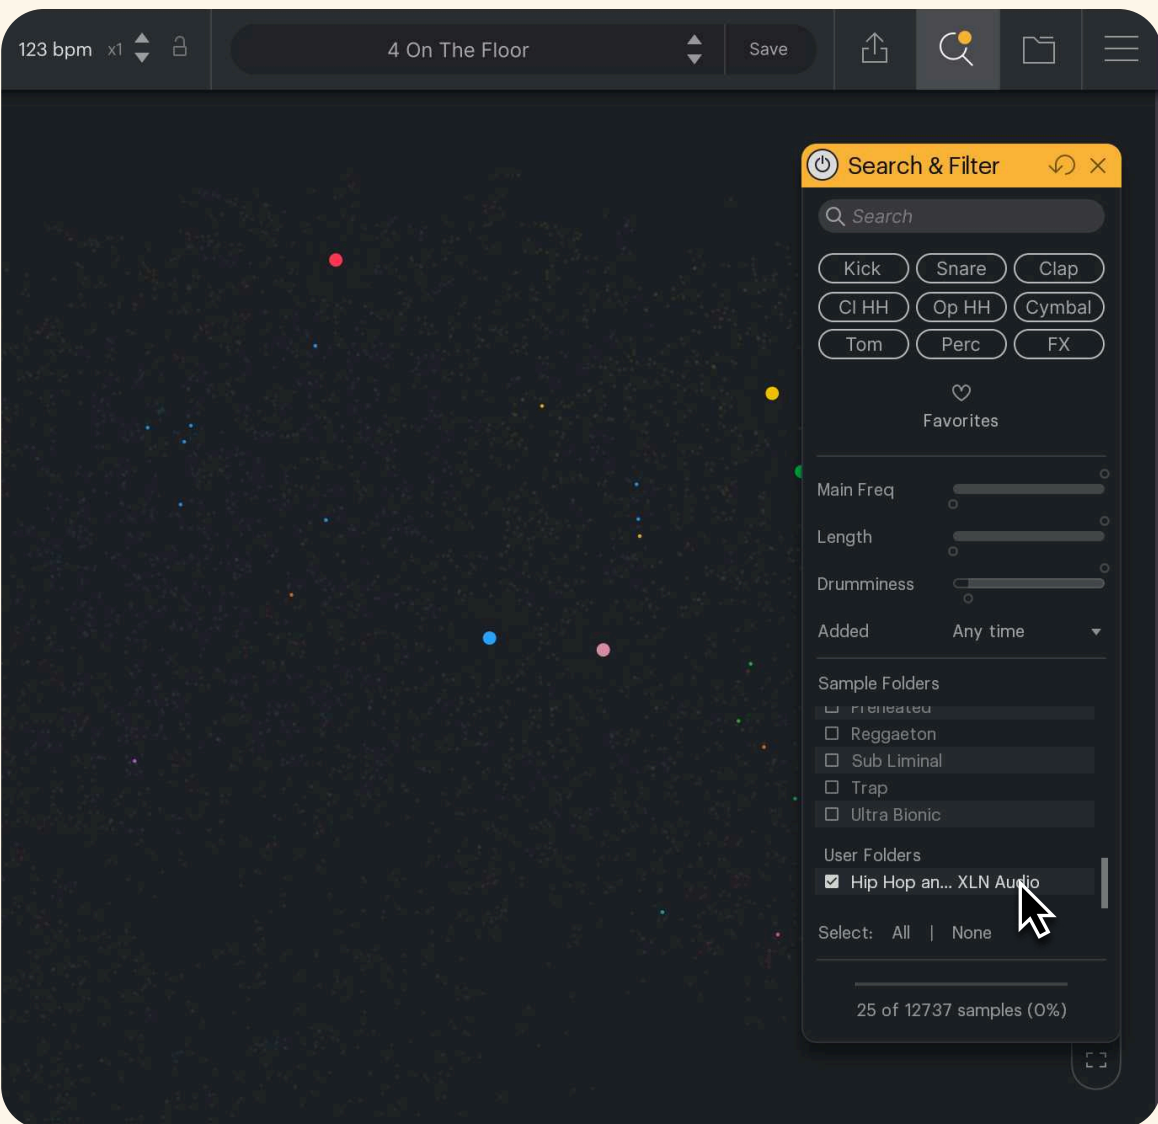

1. Drag and drop the “**Hip Hop and Gospel Samples - XLN Audio**” onto the XO Space
2. Click “**Scan & Refresh**” to index the samples

### XO supports one-shot samples only

Any loops in the folder will not be loaded into XO

## To filter only these samples in the XO Space

1. Open “**Search & Filter**”
2. At the bottom, under “Sample Folders” click “**Select: None**”.
3. Then click on the folder “**Hip Hop and Gospel Samples - XLN Audio**” to re-enable it.

**Note:** This filtering method works only if your folder has been added as a top-level folder, not nested within another sample folder.
